

How to search content in other languages

Under My Profile choose your preferred language and drag and drop it to under the languages that you understand. Choose the order of preference. If a resource is available in multiple languages, the platform will display first the language that is at the top or closest to the top in the list of languages you have defined.

How to search content in other languages

Type in the key word or title in your preferred language in the search bar from your Home page and choose the language.
